ALVANDTILE

Who are we

Alvand Tile and Ceramic Industries Co. over two decades activities in the field of designing and manufacturing ceramic products, by taking advantage of the most advanced technologies in the world, supplies wall tiles, ceramic floor and granite products (porcelain) to the domestic and international markets.

This Company, by exploiting its well-experienced and efficient staffs, has the capability of producing twelve million square meters of various kinds of products at three well- equipped plants annually.

So far, the products have been being manufactured under the following quality certificates:

- Standard Golden Plaque from the Institute of Standard and Industrial Research of Iran.
- Standard Certificate of Quality Management based on ISO 9002.
- Golden Statue of Commitment to the Quality from Total Quality Management in Geneva.
- Quality Golden Statue from French Republic.
- European Certificate of Quality Standards EN159.
- Standard Certificate of Quality Management based on ISO 9001-2000.
- Certificate of Integrated Management System- IMS (include: OHSAS18001, ISO14001, ISO9001).
- Certificate of Commitment to Organizational Excellence, based on «Efficiency of Quality Management System» (EFQM).
- Associate and approved by the Institute of Standards and Industrial Research in Quality Control of products of ceramic tile industry.
- Technical Certificate from Building and Housing Research Center based on authorization of replacement of Alvand porcelain products with natural stone in building façade.

Alvand Tile Co. has the ability of producing walls, floors and granite (porcelain) in sizes 30 x 90, 60 x 60, and 60 x 90 to 60 x 120 and by offering beautiful designs in various colors, not only meets the various tastes of society, has the quality approval of engineers and contractors but also is situated at the highest level of consumers' choice.

Policy and Perspective

Alvand tile and ceramic industries' factories, the producer of wall tiles, floor and porcelain tiles according to Iran national standard, by committing to complying with the recent revision of environmental rules and regulations, professional health and safety regulations and announced standards associated with work environment, takes into consideration the enhancement of customers' satisfaction as a principle, and in order to achieve this goal, has planned and implemented IMS (Integrated Management System) ,QMS (Quality Management System, based on standard ISO 9001: 2008), Environmental Management (ISO 14001: 2004) and occupational health and safety management (OHSAS 18001:2007) in the organization.

Additionally, in this regard, Alvand Tile Co. expresses explicitly the organizational purposes as follows, enabling all the managers and the staffs of the company not only to be aware of accomplishment of the provisions, but also to have commitment to them.

1. Continuous improvement of quality of products, by using the recent technologies of the tile industry.
2. Improvement of customers' satisfaction and prosperous attendance in the domestic and foreign markets and its development.
3. Raising the efficiency through the optimized use of resources along with continuous improvement of the effectiveness of the integrated management system processes.
4. Increasing the level of knowledge and skills of colleagues as well as the development of their partnership.
5. Development of infrastructure and management terminus.
6. Constant planning and endeavor in order to prevent environmental pollution, to optimize raw materials and energy resources and to organize wastes within the organization's activities.
7. Constant planning and endeavor in order to prevent from work accidents and occupational disease of employees, reduction of injuries and human waste and decrease of the effects of harmful factors in the work environment.

Eventually, by appointing one of the managers as management representative, it is expected all colleagues to strive in order to maintain and improve the integrated management system, quality of products, process improvement and customer satisfaction by their utmost technical and scientific aptitude.

In the specified time periods at this system, I will review the results of process performance in order to realize the measures, which will be developed to achieve aforementioned purposes.
